Richard G. Raczkowski
Michael Gladchun

Associate Portfolio Manager¹

Devon M. McKenna, CFA

Objective

Seeks to outperform the Bloomberg US Aggregate Index while maintaining a benchmark-aware risk return objective

Highlights

- Benchmark aware strategy with a broad opportunity set that includes benchmark sectors and of out-of-benchmark “Plus” sectors
- Top-down macroeconomic analysis informs sector allocations, duration posture, and overall portfolio quality, and liquidity; bottom-up fundamental analysis supports security selection
- Flexibility to invest up to 20% of its assets in high yield and 10% in non-US dollar denominated securities. May also invest in emerging markets.
- The primary drivers of alpha are sector allocation, security selection and duration/yield curve management

Benchmark

Bloomberg US Aggregate Index

[^]Performance and risk metrics are calculated on a gross-of-fee basis and do not reflect the deduction of fees and expenses. Please see the Composite trailing returns for standard gross and net performance.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be lower or higher than quoted.

Gross returns are net of trading costs. Net returns are gross returns less effective management fees. Returns may increase or decrease as a result of currency fluctuations. Indices are unmanaged and do not incur fees. It is not possible to invest directly in an index.

There is no guarantee that the investment objective will be realized or that the strategy will generate positive or excess return.

¹Associate Portfolio Managers do not have discretion over the strategy.

Diversification does not ensure a profit or guarantee against a loss.

Duration and Maturity for equity securities are deemed to be zero.

KEY RISKS

Credit Risk, Issuer Risk, Interest Rate Risk, Liquidity Risk, Non-US Securities Risk, Currency Risk, Prepayment Risk and Extension Risk. Investing involves risk including possible loss of principal.

Due to rounding, Sector, Currency, Country, Credit Quality, Duration and Maturity distribution totals may not equal 100%. This portfolio is actively managed and characteristics are subject to change. Credit Quality ratings on underlying securities of the holdings within the Composite are received from S&P, Moody's and Fitch and converted to the equivalent Moody's major rating category. This breakdown is provided by Loomis Sayles and takes the highest rating of the three agencies with separate categories for Cash & Equivalents and US Treasurys. In absence of a rating from S&P, Moody's or Fitch, a rating determined by the Loomis Sayles Research Department will be used. Below investment grade is represented by a rating below Baa3. Not Rated securities do not necessarily indicate low quality. Ratings and portfolio credit quality may change over time. Cash & Equivalents may include unsettled trades, fees and/or derivatives.

The Composite includes all discretionary accounts with market values greater than \$20 million managed by Loomis Sayles with investment guidelines which seek a maximum total return and allow a limited, yet discretionary, use of non-investment grade issues (greater than 10% up to a maximum of 25%). Investment in other non-benchmark sectors are also utilized, including non-USD denominated securities (typically ranging between 5% and 20%). As of 1/1/2021 the Composite was redefined to include commingled vehicles, previously only separate accounts were included. Prior to June 1, 2015 the Composite minimum account size requirement was \$5 million. The Composite inception date is January 1, 1989. The Composite was created in 1993.
