Daniel T. Conklin, CFA

Highlights

- Benchmark aware strategy that is broadly diversified across the US investment grade bond market including US Treasuries, securitized markets and corporate bonds. Allocations of up to 10% in non-investment grade corporate bonds are available upon request.
- Strategy aims to generate a return in excess of the benchmark, generate alpha consistently and produce top of peer group performance outcomes.
- Bottom up and top down investment process focused on core competencies of security selection and active market exposure adjustments through a diversified portfolio. Duration is matched to the benchmark and is not an alpha generation tool.
- The primary drivers of alpha are security selection and sector allocation, or the active management of risk.

Objective

Seeks to outperform the Bloomberg US Intermediate Government/Credit Bond Index while maintaining a benchmark-aware risk return objective

Benchmark

Bloomberg US Intermediate Government/Credit Bond Index

Facts		Portfolio Characteristics [^]		
Strategy inception	1/1/89	Average maturity	Composite 4.18 yrs	Index 4.19 yrs

[^]Performance and risk metrics are calculated on a gross-of-fee basis and do not reflect the deduction of fees and expenses. Please see the Composite trailing returns for standard gross and net performance.

Performance data shown represents past performance and is no guarantee of future results. Current performance may be lower or higher than quoted.

Gross returns are net of trading costs. Net returns are gross returns less effective management fees. Returns may increase or decrease as a result of currency fluctuations. Indices are unmanaged and do not incur fees. It is not possible to invest directly in an index.

There is no guarantee that the investment objective will be realized or that the strategy will generate positive or excess return.

Diversification does not ensure a profit or guarantee against a loss.

Duration and Maturity for equity securities are deemed to be zero.

KEY RISKS

Credit Risk, Issuer Risk, Interest Rate Risk, Liquidity Risk, Non-US Securities Risk, Currency Risk, Prepayment Risk and Extension Risk. Investing involves risk including possible loss of principal.

Due to rounding, Sector, Currency, Country, Credit Quality, Duration and Maturity distribution totals may not equal 100%. This portfolio is actively managed and characteristics are subject to change. Credit Quality ratings on underlying securities of the holdings within the Composite are received from S&P, Moody's and Fitch and converted to the equivalent Moody's major rating category. This breakdown is provided by Loomis Sayles and takes the highest rating of the three agencies with separate categories for Cash & Equivalents and US Treasuries. In absence of a rating from S&P, Moody's or Fitch, a rating determined by the Loomis Sayles Research Department will be used. Below investment grade is represented by a rating below Baa3. Not Rated securities do not necessarily indicate low quality. Ratings and portfolio credit quality may change over time. Cash & Equivalents may include unsettled trades, fees and/or derivatives.

The Composite includes all discretionary separate and commingled accounts with market values greater than \$20 million managed by Loomis Sayles with guidelines prescribing investment in U.S. dollar denominated bonds with limited, yet discretionary use of non-investment grade issues, with primary investment in investment grade fixed income securities of all major fixed income sectors such as corporates, governments, and mortgages with intermediate term maturities. As of December 1, 2022 the Composite was redefined to exclude stable value accounts previously stable value accounts were included. Prior to June 1, 2015 the Composite minimum account size requirement was \$5 million. The Composite inception date is January 1, 1989. The Composite was created in 1993.
